Introduction and Aim

- The intent of this Red Book is to provide users with detailed, centralised and unambiguous source of information on OPFOR/DATE – South Aptropia People's Army (SAPA) Insurgents and Guerrilla forces.
- The applicability of the SAPA Red Book is not limited to trainees, though it was designed with their training requirements at the forefront of mind. In addition to the traditional line diagrams and equipment tables, the Red Book provides imagery with the aim to help trainees visualise military structural organisation. It contains some of the key operational considerations for each military entity at every level of command described.
- The SAPA Red Book has been designed to complement other products created by DFSI, OTW and FORCOMD.

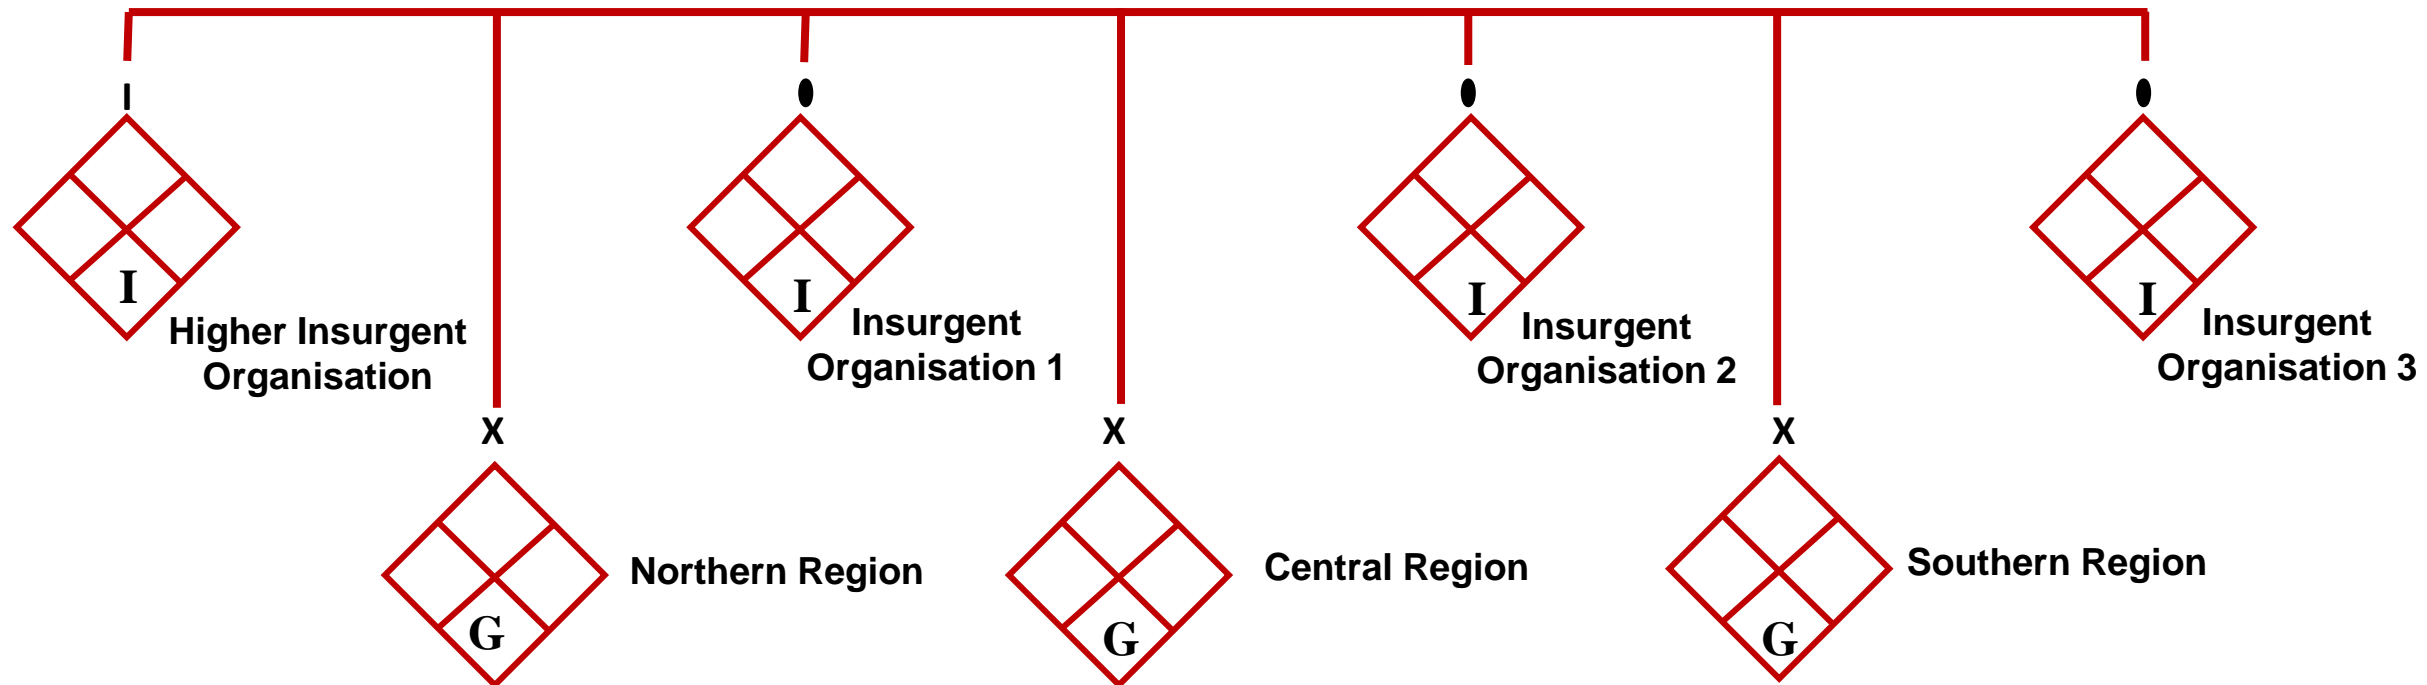

South Atropian People's Army (SAPA)

- ☐ Relates culturally to Ariana
- ☐ The group conducts most of its training in Ariana and receives most of its equipment and supplies from the Arianian military
- ☐ Chief rival group in Atropia is the Salasyl insurgent group.
